Design Direction Manual

WeGroween | 1.3.0-proposed | PROPOSED

Start here

This is a design-language handoff and non-production review package, not an application. This project preserves the leader-authorized R3 photographs and three-page H1 presentation. Canonical values live in design-tokens.json; narrative and composition in design-language.json; approvals in language-state.json.

- Audience: Quality-conscious Indian households and home cooks first; restaurant/chef/hospitality supply secondary
- Objective: Make premium fresh-produce discovery, trust, household shopping and the secondary supply path understandable
- Primary Palette: palette-2
- Fallback Used: False
- Requested Variants: palette-2; palette-1; palette-3
- Leader: User

Brand intent, direction and voice

- Theme: Every harvest is an edition worth collecting: specific, seasonal, sensory and quietly confident.
- Vibe: Warm editorial precision. Premium without ornament, authentic without rustic nostalgia, knowledgeable without clinical language.
- Emotion: A discerning grower with the eye of a food editor and the operational clarity of a dependable supplier.
- Keywords: cultivated; seasonal; mineral; tactile; sensory; precise; traceable; restrained; appetizing
- Principles: Specificity is luxury; Evidence stays close to the claim; Produce leads; Seasonality creates movement; Households come first; Constraints become service design
- Anti Principles: No generic leaf-logo/beige-wellness/all-green shorthand; No unsupported health claims; No glassmorphism or arbitrary radii; No stock imagery as cultivation evidence; No hidden service constraints
- Tone: V1 Cultivated Authority: precise, sensory, warm, transparent and calm. Concrete nouns/verbs; short headings and plain full sentences.
- Copy Examples: Grown with quiet precision.; Shop this harvest.; Supply your kitchen.; Harvesting Friday. Delivery begins Saturday.; This bed is resting. Join the next harvest list.; We could not confirm that payment. Your basket is safe; try again or choose another method.
- Iconography: I1 Field Notes: 24px grid, 1.75px optical stroke, square terminals, rounded joins, open counters and crop-specific asymmetry. Icons inherit currentColor; icon-only targets require names and 44px targets.

- Motion Purpose: M1 continuity and immediate state feedback: 140/220/360ms. Reduced motion removes translation and decorative reveals; no critical information depends on animation.

Brief and constraints

- Offer: Microgreens, mushrooms, organic vegetables and fruits, and specialty farming products
- Constraints: Design system and review prototypes only; English-first, single brand, no dark mode v1; Existing approved C2/T2/G3/V1/M1/I1/H1 preserved; Wordmark/logo deferred
- Assumptions: India initial market from approved brief; Catalogue expansion, prices, pack sizes and delivery terms remain illustrative/unconfirmed
- Exclusions: Application/backend/database/auth/checkout/CMS implementation; Dependencies and deployment; New logo production; Unsubstantiated health/organic/certification claims; Public-use image rights clearance
- Success Criteria: Household-first task clarity; Discoverable restaurant pathway; Exact preservation of approved values; Synchronized sources and truthful review status
- Approval Source: approved-brief.md dated 2026-10-02

Creative territories

Approach	Thesis / audience fit	Trade-offs
Cultivated Editorial	Treat every harvest as a precise, seasonal, sensory edition.; Household premium with restaurant credibility	Photography/copy discipline; excessive serif or space can slow shopping
Living Laboratory	Visible cultivation intelligence, state clarity and quality control.; Specialty and restaurant authority	Can become clinical or synthetic
Harvest House	Generous modern pantry built around human cultivation and shared meals.; Household warmth and broad-category adaptability	Rustic/mass-market drift; rounded illustration can reduce precision

Composition and purposeful empty space

- Attention: Household offer and shopping first, evidence near action, restaurant supply secondary; preserve honest alternate routes
- Negative Space: Macro: separate H1 narrative chapters with approved section rhythm. Meso: distinguish copy/media and peer groups. Micro: token gaps within labels, icons, controls and card anatomy. Space clarifies relationships, not a generic premium claim.
- Density: G3 Curated Market: 1200px content, 12 columns, 20px canonical gutter; preserve efficient catalogue and restrained editorial headings
- Responsive Priorities: Preserve essential price, pack, status, navigation and next action; reflow into readable stacked regions; do not clip meaningful text; 35% text expansion and 200% reflow checks pending

- Conflict Resolution: Safety/accessibility/truthfulness, task comprehension, approved brand/business intent, then decoration; material compromises need leader choice
- Exceptions: Preserve approved R3 imagery authorization despite empty-media default; H1 three-page continuous presentation retained; No logo production
- Status: DERIVED documentation of approved H1; new presentation mapping awaits confirmation

Pattern: h1-hero

- Id: h1-hero
- User Need: Understand offer and find household shopping
- Purpose: Lead with grown food and useful purchase path
- Placement: H1 sequence position 1
- Prominence: Primary promise and household CTA
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-trust

- Id: h1-trust
- User Need: Assess what the existing catalogue can support
- Purpose: Keep factual catalogue/support context near discovery
- Placement: H1 sequence position 2
- Prominence: Supporting reassurance
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-harvest

- Id: h1-harvest
- User Need: Compare varieties, packs, price and availability
- Purpose: Make produce comparison the main next task
- Placement: H1 sequence position 3
- Prominence: Primary shopping collection
- Removal Cost: Loss of this approved narrative step and its useful meaning

- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-categories

- Id: h1-categories
- User Need: Find the relevant food family
- Purpose: Expose named category routes without vague labels
- Placement: H1 sequence position 4
- Prominence: Equal-priority category peers
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-cultivation

- Id: h1-cultivation
- User Need: Understand growing and handling credibility
- Purpose: Place provenance close to product interest
- Placement: H1 sequence position 5
- Prominence: Supporting evidence
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-delivery

- Id: h1-delivery
- User Need: Understand whether and when an order can arrive
- Purpose: Explain service constraints before payment
- Placement: H1 sequence position 6
- Prominence: Decision-relevant clarity
- Removal Cost: Loss of this approved narrative step and its useful meaning

- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-home-box

- Id: h1-home-box
- User Need: Explore compatible household pairings
- Purpose: Offer practical combinations and repeat-use context
- Placement: H1 sequence position 7
- Prominence: Secondary household path
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-restaurant

- Id: h1-restaurant
- User Need: Find kitchen supply without displacing households
- Purpose: Provide a separate professional enquiry path
- Placement: H1 sequence position 8
- Prominence: Secondary B2B path
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-journal

- Id: h1-journal
- User Need: Use and store unfamiliar ingredients
- Purpose: Reduce uncertainty and avoid food waste
- Placement: H1 sequence position 9
- Prominence: Supporting education
- Removal Cost: Loss of this approved narrative step and its useful meaning

- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Pattern: h1-closing

- Id: h1-closing
- User Need: Return to shopping or choose a harvest note
- Purpose: Offer next steps after the narrative
- Placement: H1 sequence position 10
- Prominence: Primary shopping plus optional follow-up
- Removal Cost: Loss of this approved narrative step and its useful meaning
- Responsive: Preserve anatomy/content order; stack by task priority without hiding prices, units, states or actions
- Evidence Ids: ev-approved-h1
- Knowledge Class: DERIVED
- Source: Legacy H1 section; rationale documents existing intent, not a new user study

Three color approaches

Approach	Intent and psychological rationale	Benefits / risks
Orchard Ink	Botanical ink, blackberry and harvest gold: depth, restraint and produce-led seasonality.	Cultivated, calm and sensory / Can suggest wine/cosmetics without fresh food context
Soil & Saffron	Warm soil, terracotta and saffron: grounded, Indian and appetizing.	Warm, honest premium / Equal terracotta/saffron emphasis can become rustic/festive
Plum & Leaf	Boutique plum, cultivated olive and ripe red: rare and giftable.	Curated gifting/editorial impact / Can resemble beauty, wine or hospitality

Semantic color map

Role	palette-1	palette-2	palette-3
brand-primary	#223225	#402B24	#402238
brand-secondary	#7D3F54	#98513D	#50633B

Intended pair contrast measurements

Ratios below are computed for declared opaque sRGB colors and intended pairs. Normal text requires 4.5:1; large text only qualifies at the recorded size/weight; essential non-text indicators require 3:1. These checks do not establish whole-product accessibility compliance.

Pair / purpose	Minimum	palette-1	palette-2	palette-3
text-primary / background (normal-text)	4.5	13.823:1	14.355:1	14.607:1
text-primary / surface (normal-text)	4.5	15.322:1	15.43:1	16.165:1
text-primary / surface-elevated (normal-text)	4.5	15.7:1	15.695:1	16.423:1

Pair / purpose	Minimum	palette-1	palette-2	palette-3
text-secondary / background (normal-text)	4.5	5.862:1	6.545:1	6.341:1
text-secondary / surface (normal-text)	4.5	6.498:1	7.035:1	7.017:1
text-secondary / surface-elevated (normal-text)	4.5	6.659:1	7.156:1	7.129:1
text-inverse / brand-primary (normal-text)	4.5	12.919:1	12.517:1	13.355:1
text-inverse / brand-secondary (normal-text)	4.5	7.391:1	5.557:1	6.298:1
surface-elevated / error (normal-text)	4.5	7.014:1	6.996:1	7.172:1
brand-primary / background (normal-text)	4.5	11.921:1	12.088:1	12.419:1
brand-primary / surface (normal-text)	4.5	13.214:1	12.992:1	13.744:1
brand-primary / surface-elevated (normal-text)	4.5	13.54:1	13.216:1	13.964:1
success / background (normal-text)	4.5	6.275:1	6.243:1	6.223:1
success / surface (normal-text)	4.5	6.956:1	6.711:1	6.887:1
success / surface-elevated (normal-text)	4.5	7.128:1	6.826:1	6.997:1
warning / background (normal-text)	4.5	5.148:1	5.651:1	5.392:1
warning / surface (normal-text)	4.5	5.706:1	6.074:1	5.968:1

Pair / purpose	Minimum	palette-1	palette-2	palette-3
warning / surface-elevated (normal-text)	4.5	5.847:1	6.178:1	6.063:1
error / background (normal-text)	4.5	6.175:1	6.398:1	6.378:1
error / surface (normal-text)	4.5	6.845:1	6.877:1	7.059:1

text-primary / accent (normal-text)	4.5	5.84:1	6.314:1	not checked:1
text-inverse / accent (normal-text)	4.5	not checked:1	not checked:1	5.091:1

Typography options and scale

Approach	Display / body families	License / loading / fallbacks
Newsreader + Manrope	display: Newsreader; Georgia; Times New Roman; serif; body: Manrope; Segoe UI; Arial; sans-serif; mono: ui-monospace; SFMono-Regular; Consolas; monospace	license: SIL OFL 1.1; bundled notices; loading: Self-host variable WOFF2; preload roman; font-display swap; preserve OFL; fallbacks: Newsreader -> Georgia/Times New Roman/serif; Manrope -> Segoe UI/Arial/sans-serif
Fraunces + DM Sans	display: Fraunces; Georgia; serif; body: DM Sans; Segoe UI; Arial; sans-serif; mono: ui-monospace; SFMono-Regular; Consolas; monospace	license: SIL OFL 1.1; bundled notices; loading: Self-host variable WOFF2; preload roman; font-display swap; fixed decorative axes; fallbacks: Fraunces -> Georgia/serif; DM Sans -> Segoe UI/Arial/sans-serif

type-1 — alternative

Role	Size	Line height	Weight	Tracking
display	clamp(3.5rem, 7vw, 6rem)	0.92	500	-0.055em
h1	clamp(2.75rem, 5vw, 4.5rem)	0.98	500	-0.045em
h2	clamp(2.25rem, 4vw, 3.5rem)	1.02	500	-0.035em
h3	clamp(1.75rem, 3vw, 2.5rem)	1.08	550	-0.025em
h4	1.75rem	1.2	650	-0.02em
h5	1.375rem	1.28	700	-0.012em

Role	Size	Line height	Weight	Tracking
h6	1.125rem	1.35	750	0
lead	1.25rem	1.6	450	-0.01em
body	1rem	1.62	450	-0.006em
label	0.8125rem	1.3	750	0.075em
caption	0.75rem	1.45	550	0.015em
code	0.8125rem	1.5	500	0

type-2 — selected

Role	Size	Line height	Weight	Tracking
display	92px	0.94	600	-0.05em
h1	68px	0.99	600	-0.04em
h2	54px	1.04	600	-0.032em
h3	38px	1.1	600	-0.022em
h4	28px	1.2	600	-0.025em
h5	22px	1.28	700	-0.016em
h6	18px	1.35	700	-0.005em
lead	20px	1.58	400	-0.012em
body	16px	1.6	400	-0.008em
label	13px	1.3	700	0.07em
caption	12px	1.45	500	0.012em
code	13px	1.5	500	0em

Grid, spacing and visual vocabulary

- Grid: container: content: 1200px; wide: 1360px; reading: 660px; form: 560px; grid: columns: 12; gutter: 20px; page-margin-compact: 20px; page-margin-medium: 32px; page-margin-wide: 48px; page-margin: 20px; breakpoint: compact: 640px; medium: 900px; wide: 1200px
- Spacing: primitive: 0: 0px; 1: 2px; 2: 4px; 3: 8px; 4: 12px; 5: 16px; 6: 20px; 7: 24px; 8: 32px; 9: 40px; 10: 48px; 11: 64px; 12: 80px; 13: 96px; semantic: none: 0px; 2xs: 4px; xs: 8px; sm: 12px; md: 20px; lg: 32px; xl: 48px; 2xl: 72px; 3xl: 96px
- Radius: none: 0px; control: 8px; card: 10px; panel: 14px; pill: 999px; round: 50%

- Motion: duration: micro: 140ms; standard: 220ms; emphasized: 360ms; easing: standard: 0.2; 0; 0; 1; enter: 0; 0; 0.2; 1; exit: 0.4; 0; 1; 1; micro: 140ms; standard: 220ms; emphasized: 360ms; easing-standard: cubic-bezier(0.2, 0, 0, 1); easing-enter: cubic-bezier(0, 0, 0.2, 1); easing-exit: cubic-bezier(0.4, 0, 1, 1)

Component rules and states

Navigation

- Purpose: Orient customers and expose primary shopping with discoverable supply
- Anatomy: skip link, brand, primary links, restaurant route, search/account/basket
- Variants: storefront, scrolled, admin reference
- States: default; active; hover; focus; mobile-collapsed; mobile-expanded; scrolled; overflow
- Responsive: Collapse to labelled menu; preserve basket and sensible focus order
- Content: Short concrete category nouns; no ambiguous sole Explore label
- Accessibility: nav landmark, aria-current, skip link, Escape/focus return; trap focus only in modal surface
- Token Mapping: component.navigation
- Legacy Source: DESIGN_SYSTEM.md component contracts
- Review Status: Specification only; rendered state/stress checks pending

Button

- Purpose: Initiate clear immediate actions
- Anatomy: label, optional l1 icon, loading indicator
- Variants: primary, secondary, tertiary, destructive, icon; 44/48/56px
- States: default; hover; active; focus; loading; disabled; secondary; tertiary; destructive
- Responsive: Keep target and label readable when wrapped
- Content: Loading preserves width and explains action; disabled never looks actionable
- Accessibility: Native buttons/links; named icon controls; native Enter/Space; expose busy state
- Token Mapping: component.button
- Legacy Source: DESIGN_SYSTEM.md component contracts
- Review Status: Specification only; rendered state/stress checks pending

Input

- Purpose: Collect data with persistent guidance
- Anatomy: label, required/optional cue, control, helper/error/status

- Variants: text, email, phone, search, quantity, select, textarea, checkbox/radio/switch
- States: empty; filled; focus; error; success; disabled; read-only; validating; hover
- Responsive: Full available width with labels/helper visible
- Content: Placeholder is example only; errors explain recovery
- Accessibility: Persistent labels, described-by links, error summary, sensible validation timing
- Token Mapping: component.input
- Legacy Source: DESIGN_SYSTEM.md component contracts
- Review Status: Specification only; rendered state/stress checks pending

Card

- Purpose: Compare food with variety, pack, price, timing and next action
- Anatomy: shared media/title/copy/metadata/divider/price/action rows
- Variants: product, category, editorial, selected/featured with semantic reason
- States: default; focus; selected; hover; unavailable; loading; error
- Responsive: Shared row geometry; stack predictably; no meaningful clipping at zoom
- Content: Shortest/longest/missing optional content and 35% expansion; preserve price/unit/action
- Accessibility: No nested conflicting links; selection and unavailability have text; focus visible
- Token Mapping: component.card
- Legacy Source: DESIGN_SYSTEM.md component contracts
- Review Status: Specification only; rendered state/stress checks pending

Badge

- Purpose: Communicate compact named category or availability state
- Anatomy: text, optional l1 glyph, optional named remove button
- Variants: neutral, brand, success, warning, error, information
- States: default; success; warning; error; information
- Responsive: Remain readable at 200% zoom; wrap where needed
- Content: Ready now, Harvest Friday, Limited, Resting; no color-only state
- Accessibility: Text carries meaning; removable chip action is separately named
- Token Mapping: component.badge
- Legacy Source: DESIGN_SYSTEM.md component contracts
- Review Status: Specification only; rendered state/stress checks pending

Component state values are defined in design-tokens.json and visually sampled in artifact/component-specimen.html. Do not treat static loading/expanded samples as implemented application behavior.

Imagery direction

Factor	Rule
Thesis	Cultivation and ingredient detail support quiet premium confidence; product color remains truthful
Warmth	Natural neutral to gently warm; preserve believable daylight and food whites
Tint	Avoid green casts and artificial palette tints
Saturation	Restrained to moderate; no exaggerated green or fake freshness
Exposure	Keep highlight texture and shadow detail; avoid luminous fake dew or crushed substrate
Contrast	Readable food texture without harsh global contrast; overlays need their own contrast check
Lighting	Soft directional daylight-like light; no clinical glare or stage-lit spectacle
Texture	Preserve actual skin, leaf, mushroom, substrate and packing texture; restrained retouching
Depth	Subject-led separation; keep cultivation context legible where it acts as evidence
Composition	Macro food detail, scale, hands, growing beds, harvest and finished-food context; quiet backgrounds around conversion copy
Crop	Product 4:3; square packshot allowed; hero/editorial 4:5 or 5:4. Preserve current R3 media geometry
Negative Space	Reserve focal-safe regions for overlays; do not move copy over busy texture
Background	Natural low-distraction mineral/paper/kitchen/growing contexts; separate packshot consistency from documentary evidence
Palette Compatibility	C2 frames cool greens naturally; C1 blackberry remains restrained; C3 must not make food look like beauty/wine. Never grade merchandise to fit a palette.
Archetype Rules	Catalogue: consistent angle/scale/padding for comparable food, no price or unit hidden; Food: appetite through credible texture and clean handling; B2B: show process evidence and labelled quantities; no invented chef testimonials

Factor	Rule
People	Hands and cultivators may explain process; obtain consent/model/property rights; avoid staged stereotypes or implied endorsements
Generated Imagery	No new generated images are requested. Generated scenes may not be cultivation/provenance evidence; any future production needs separate authorization and human artifact review.
Accessibility	Meaningful alt text identifies variety/context; decorative media uses empty alt; overlays require readable contrast; responsive crops preserve focal subject
Performance	Use existing WebP where appropriate; define responsive crops and dimensions; optimize without food-color or texture loss; measure later
Rights	R3 project-image prototype use authorized on 2026-10-03; ownership/public/production rights unverified. Exclude visible-watermark candidates. Fonts have bundled OFL.
Examples	Do: natural mushroom texture against quiet soil/mineral context; Do: label cultivation evidence only when verified; Do not: tint greens to match the palette; Do not: use stock/generated farms as WeGroween evidence
Status	APPROVED project treatment expansion on 2026-10-05; rights limitations retained
Provenance	BRAND_IDENTITY_BLUEPRINT.md section 9 and assets/README.md; new qualitative bands are authored proposals, not measured edit settings

The separate Imagery Direction Guide is the production reference for photography, image selection, grading and authorized generated imagery. This project retains its existing authorized R3 image exception; no new media is sourced.

Homepage and palette variants

- Selected Structure: h1
- Section Order: hero; trust; harvest; categories; cultivation; delivery; home-box; restaurant; journal; closing
- Coverage: coverage mode: all-three; selected palette: palette-2; primary palette: palette-2; fallback palette: palette-1; fallback used: False; requested palettes: palette-2; palette-1; palette-3; structure lock: True
- Variant Lock: Only mapped palette values change; all layout, copy, typography, spacing and media geometry stay fixed.

Evidence, decisions and limitations

- Summary: Reuse 2026-10-02 research: premium should come from variety, provenance, harvest, handling, delivery and remedy specificity; households remain primary and restaurant supply secondary.
- Sources: id: ev-current-site; title: Current WeGroween static catalogue; source url: None; date: 2026-10-02; observation: Four-page static catalogue with earthy tokens embedded separately in each page, a script wordmark, bento cards, CDN-delivered Tailwind and AOS, placeholder links, and no functional cart, checkout, account, API, database, or admin.; interpretation: The existing visual vocabulary can inform continuity, but the implementation must be replaced by a governed application architecture.; confidence: high; limitations: No production analytics or user research available; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-sanesa-provenance; title: Sanesa Yourganic; source url: https://www.sanesa.in/; date: 2026-10-02; observation: Uses source verification, same-day cut-offs, refunds, fulfilment detail, sourcing policy, and a named integrity-check process as trust mechanisms.; interpretation: Operational transparency is a stronger premium cue than decorative luxury language.; confidence: high; limitations: Claims were not independently audited; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-bhoomi-membership; title: Bhoomi Farms; source url: https://bhoomi.farm/web/; date: 2026-10-02; observation: Pairs source traceability with a membership model, next-day delivery, pause controls, broad category navigation, and explicit certification links.; interpretation: WeGroween should support one-off buying first while leaving room for repeat boxes or subscriptions after operational validation.; confidence: high; limitations: Subscription economics are business-specific; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-gourmet-mushroom-dual-audience; title: Gourmet Mushroom Company; source url: https://gourmetmushroomco.com/; date: 2026-10-02; observation: Builds specialty credibility through an award, locally grown sourcing, chemical-use clarity, freshness, product education, and restaurant relationships while remaining approachable to home cooks.; interpretation: Restaurant proof can strengthen the household proposition when it is supporting evidence rather than the dominant navigation.; confidence: high; limitations: Contact-led rather than full commerce flow; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-microgreen-store-harvest; title: Microgreen Store Gurgaon; source url: https://www.microgreenstore.in/; date: 2026-10-02; observation: Frames ordering around harvest windows, box entitlements, upcoming availability, delivery status, storage guidance, and familiar Indian meal usage.; interpretation: Harvest-state communication can make operational constraints feel like premium freshness rather than stock failure.; confidence: medium; limitations: Prelaunch or early-stage operating evidence; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-riverford-repeat; title: Riverford Organic Farmers; source url: https://www.riverford.co.uk/; date: 2026-10-02; observation: Connects seasonality, grower traceability, repeat boxes, add-ons, easy pause/skip controls, delivery windows, and recipe education.; interpretation: WeGroween can treat seasonality and repeat purchase as service design, not only brand copy.; confidence: high; limitations: UK logistics and subscription habits differ from India; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-oishii-premium; title: Oishii Farms; source url: https://oishii.com/pages/our-farms; date: 2026-10-02; observation: Premium value is expressed through varietal specificity, sensory language, controlled-

environment craft, named farms, human expertise, and precise product photography rather than generic luxury motifs.; interpretation: WeGroween should make cultivation and sensory distinctions concrete, while avoiding imitation of Oishii's Japanese cultural expression.; confidence: high; limitations: Luxury berry category and US distribution differ; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-natoora-transparency; title: Natoora; source url: https://natoora.com/en-GB/; date: 2026-10-02; observation: Uses radical seasonality, grower stories, culinary content, diversity of varieties, and an editorial visual system to connect chefs and home cooks.; interpretation: A strong editorial layer can unify broad categories without turning WeGroween into a generic supermarket.; confidence: high; limitations: Distinctive identity must not be reproduced; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-eztrolley-b2b; title: EZTrolley; source url: https://www.eztrolley.com/; date: 2026-10-02; observation: Restaurant value centers on real-time stock, fast ordering, repeat orders, delivery tracking, automated GST invoices, account support, and broad procurement coverage.; interpretation: WeGroween should separate restaurant onboarding and account workflows while reusing the core catalogue.; confidence: medium; limitations: Claims and scale were not independently verified; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-baymard-grocery; title: Baymard 2026 Grocery Ecommerce UX Research; source url: https://baymard.com/research-articles/online-grocery-ecommerce-ux-2026; date: 2026-10-02; observation: Grocery-specific friction clusters around fulfilment availability, substitutions, large repeat baskets, past purchases, and finding critical product attributes.; interpretation: WeGroween should expose serviceability and delivery before checkout, support buy-again, and keep substitution control global with exceptions.; confidence: high; limitations: Many detailed guidelines are behind a paid research library; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-wcag22; title: Web Content Accessibility Guidelines 2.2; source url: https://www.w3.org/TR/WCAG22/; date: 2026-10-02; observation: Interactive components need programmatic name, role, state, and value; dynamic status messages must be exposed to assistive technology without requiring focus changes.; interpretation: Accessibility must be embedded in component contracts and tested states, not added after visual design.; confidence: high; limitations: Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-fssai-ecommerce; title: FSSAI Advisory for E-commerce Food Business Operators; source url: https://fssai.gov.in/upload/advisories/2024/12/674efa161d756Adobe%20Scan%203%20Dec%202024.pdf; date: 2026-10-02; observation: Food-commerce listings and operations require valid FSSAI identification, alignment between online and physical-label claims, safe last-mile handling, and adequate remaining shelf life.; interpretation: Compliance fields must be supported in product/admin data and surfaced where legally required; claims cannot be invented for design effect.; confidence: high; limitations: Legal configuration requires qualified review before launch; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-local-visuals; title: WeGroween local visual resources; source url: None; date: 2026-10-02; observation: References favor isolated produce photography, microgreen line drawings, watercolor seedlings, and AI-generated botanical material.; interpretation: A restrained botanical mark-making layer could add authenticity, but visible stock watermarks, uncertain licenses, and generic AI imagery make most files unsuitable for direct production use.; confidence: high; limitations: Ownership and reuse rights are undocumented; Historical source; not live reverified during schema migration; rights: Reference only; no identity, copy or asset reuse inferred; id: ev-approved-h1; title: Leader-approved H1 continuous R3

homepage; date: 2026-10-03; observation: H1 household-first narrative and three-page continuous presentation with selected project photographs.; interpretation: Preserve source order, copy, media geometry and original authorization.; confidence: high; rights: Prototype use authorized; production/public rights unconfirmed; id: ev-legacy-decisions; title: WeGroween leader decision log; date: 2026-10-05; observation: Recorded historic identity approvals and scope corrections.; confidence: high; rights: Project-private

- Gaps: Service area and delivery rules; Final catalogue, pack sizes, prices and claims; Production asset rights; New imagery-guide rules and migrated presentation mapping need acceptance
- Budget: questions: Legacy schema equivalence; Existing H1 copy/media preservation; New mandatory field provenance; max sources: 6; max minutes: 30; used web sources this migration: 0
- Stop Condition: Resolve preservation/mapping questions locally; new material design choices remain proposed until accepted

Approval evidence

- A1: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy approved-brief.md dated 2026-10-02: Status approved; existing design-system-only brief reused
- A2: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy decisions.md 2026-10-02 Creative territory: selected Cultivated Editorial after comparable previews

- A3: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy decisions.md 2026-10-02 Tone of voice: user explicitly instructed recommended V1 Cultivated Authority
- A4: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy decisions.md 2026-10-02 Canonical palette: user response c2 t2 g3 selected C2 Soil & Saffron
- A5: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy decisions.md 2026-10-02 Canonical typography: user response c2 t2 g3 selected T2 Fraunces + DM Sans
- A6: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy decisions.md 2026-10-02 Canonical grid/density: user response c2 t2 g3 selected G3 Curated Market
- A7: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings. Original evidence: Legacy decisions.md H1 + PDFs on 2026-10-02; three-page continuous presentation on 2026-10-03. Source copy/order retained; renderer mapping not approved
- A8: User / User 2026-10-05: All three palettes. User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings.
- A9: User / Legacy decisions.md 2026-10-03: B2 reviewed-redacted structural reuse; no client identity/copy/images/contacts/catalogue promotion
- A10: User / User in current conversation on 2026-10-05: Accept mapping and additions (Recommended). Accepted MIGRATION_REVIEW.md including preserved identity/H1/R3, carried research, purpose/component additions, fuller imagery treatment and proposed alternative mappings.

Application and governance

Use semantic aliases, not invented color literals. Preserve shared card anatomy and aligned actions; verify variable-length and missing optional content, keyboard focus, narrow screens and zoom. Approve material changes before editing source inputs, then rebuild affected views. Read quality-review.json for observed QA, not inferred quality. Archive verified byte hashes; reuse requires separate permission. No source application edits, scaffolding, backend, checkout, dependencies or deployment are part of this skill.

- Change History: 2026-10-05: Versioned schema-2 candidate; legacy package retained active; original approvals carried with scope evidence; 2026-10-05: Mapping and proposed additions accepted; all-three coverage retained; project-specific R3 renderer authorized by that acceptance
- Exceptions: R3 imagery prototype-use authorization overrides the skill empty-media default for the approved R3 presentation; Logo deferred; No release approval inferred; Legacy alternate preview/order mappings accepted as proposed comparative hypotheses, not new canonical selections
- Source Authority: Tokens: values; design-language.json: narrative/composition; language-state.json: progress/approvals
- Confidentiality: Project-private; B2 permits only reviewed-redacted structural reuse
- Migration: source version: 1.2.0-proposed; status: mapping-approved-rendering-in-progress; source hashes: BRAND IDENTITY BLUEPRINT.md: dc7103397255675f1a1026ba825b2f2a6f534b46780bb492226ebd8ca0852b60; decisions.md: 3bd92a93eb13d40e54ffd3c7f206a271c35b7fbdc263144efdb20f13a148f001; DELIVERY VALIDATION.json: 75d7d13b7706e1372ab4417f799c795cb5b00f82874da77804636201b78c1280; design-tokens.json: fdc24832a4d5f9c1e53be77ab5b9d6c09178e4a22769c617ff3855c06fef7d4d; DESIGN SYSTEM.md: fcef1e7a3d13ea66070101cb98091f67aff5bb7cf3dd4e11a613d54bd888a38a; ICONOGRAPHY OPTIONS.md: d0fb0d4fbdf746602c454e84a82225fbbfdf28d881366d59efa88876986b7937; PROJECT STATUS.md: b2cbfac10de086b2fce056a209272a40dfe9beb990e9a8be883ffdfa8a8d6c95; QUALITY REVIEW.md: 4e8dc014b583f50593d4a5636a08f9a04cb1b4e60721e47401b2558e2d7a7cc1; README.md: 53ec65ac5201d4b07ce5548823d440ea5fa178f02dd85239118ad45ce0901a4a; research-summary.md: fd142727fcbdd6649f54c66f5066c9202387b15ee7d0a6d5f6a9f6a7e5f67a37; tokens.css: 0c2bb5442a0c52e49d8c767e23886ceeaa35493d72d5a4554afeee79d8a4b5c5; archive/archive-log.jsonl: 0774ca9c4dc58249b8db9144ebe9e1ec7be54953abd03ed7fced775c1a63a6e7; artifact/comparison.html: a4a4a58c0652509c6f4ee76007c9c9f2c2907a2d8e6d36d67bb43206fcca94ee; artifact/components.html: a1bb6b3972e796676815cb877ecab21bba998dc287efa787ab5faced80f7c0f7; artifact/iconography-options.html: a04885ecb8bfc01937dd93c14c6e16e20250a464a55ff85f721421007563370f; artifact/iconography.html: d801e3e573788226afb1a0432792b33e7a4496e5426a0771a88d61f6ccbde711; artifact/index.html: 4f66adb88ad61965770c12c4006b5d322bf568edd720b34327a362bef6e21acd; artifact/specimen.css: 162318e852b20764a57564668f6d7254a588c35f71d51d342846b71d75274fc3; artifact/specimen.js: a8a2bd1d1c9ac5fef4107f379753daaa413c4beef778aa33eabb19ba3cd1a028; assets/blue-oyster.webp: 31d7256aba77659a195c92ca66cac9f7a94bd23277d8ebf27e91eba1f6dbd4ee; assets/broccoli-microgreens.webp: d2f21e064fe4195a14551e08c87ffc9b75cdbe77b0e87c456321f7aeab338269; assets/button-mushrooms.webp: 326dfd28cb9f5d24e42872a620e31f6447f569c29e1c9f3903c0dc759624b0e1; assets/cultivation-microgreens.webp: 49f4cde0ec73c303d46470174cde4ec83ba09715e163b6f3b07d681936e2dd98; assets/dm-sans-latin-variable.woff2: ca72d2bcea8f4daa783dbdfa2d9b46068c3ce38168e05918fb867aa453b4f890; assets/fraunces-latin-italic-variable.woff2:

Project presentation adapter

The bundled schematic renderer cannot retain R3 photographs/forms and the approved three-page format. The project adapter preserves H1 copy, image geometry and presentation, changing mapped palette values only. All three coverage variants are rendered. The full legacy package remains in a hash-verified rollback. Project validation retains standard specification, approval, coverage, hash, QA and scope checks, and checks adapter freshness rather than comparing to the incompatible schematic renderer.
