WEGROWEEN HOMEPAGE DIRECTION

Harvest to *Home.*

One continuous, high-fidelity homepage for premium household shopping, with a deliberate supply path for restaurants.

The following page is the complete desktop homepage – read from top to bottom as one connected customer journey.

PROTOTYPE READING GUIDE

01 **Discover**
See what is ready, where it can be delivered and why it is worth choosing.

02 **Shop**
Compare current products with variety, timing, pack and price kept together.

03 **Trust**
Understand cultivation, handling and the path from harvest to doorstep.

04 **Extend**
Move into subscriptions, restaurant supply and useful seasonal guidance.

124001 | Check availability

● Example result: Saturday delivery is available.

02 – SHOP BY KITCHEN NEED

A considered market, not an endless aisle.

Categories are organised around ingredient character and use, while still naming the product honestly.

FRESH FINISH

Microgreens

Peppery, mild and aromatic varieties for everyday plates.

Shop microgreens –>

SAVOURY DEPTH

Mushrooms

Distinct varieties with texture, handling and cooking notes.

Shop mushrooms –>

SEASONAL STAPLES

Vegetables and fruit

Organically grown produce selected for flavour and timing.

Shop produce –>

CURIOUS INGREDIENTS

Farm discoveries

Limited cultivars and unusual products with clear guidance.

Explore the uncommon –>

CULTIVATION PHOTOGRAPH OR SHORT FILM

Growing environment

4:5 CROP – MEDIA PLACEHOLDER

Batch record 042 Humidity, substrate, harvest window and pack notes

03 – CULTIVATION JOURNAL

Good produce earns trust through specifics.

Instead of broad wellness claims, each harvest explains what it is, when it was ready, how it was handled and how to use it well.

01 **Name the variety**
Blue-grey oyster is more useful than a generic mushroom label.

02 **Show the harvest window**
Ready, growing, limited and resting are honest operating states.

03 **Explain the handling**
Pack date, storage and best-use notes travel with the order.

Read this week's cultivation notes –>

04 – FROM HARVEST TO HOME

A short path, explained before checkout.

Delivery information is part of the shopping experience, not a policy discovered after payment.

1

Check your area

Confirm the next delivery window before choosing perishable produce.

2

Choose what is ready

See harvest status, pack size and timing on the product itself.

3

We pack with context

Storage and use notes help the product arrive with fewer unknowns.

4

Receive your harvest

Track the delivery and know whom to contact if something is wrong.

Designed around local freshness Service areas, order cut-offs and delivery days should remain explicit and editable as operations grow. **Read delivery guidance –>**

THE HOUSEHOLD EDIT

A weekly box with enough direction to be useful.

A rotating selection for homes that want variety without searching the entire harvest. Each box names what is inside before payment and includes simple storage and kitchen notes.

- 4 to 6 ready products
- Swap one item before checkout
- Household-friendly pack sizes
- Pause whenever the week is busy

See this week's box | How subscriptions work

4:3 CROP – MEDIA PLACEHOLDER

From **Rs 680** per delivery

05 – FOR PROFESSIONAL KITCHENS

Specialty produce with a direct supply conversation.

Restaurants, cafes and chefs can request current availability, kitchen pack sizes and recurring supply without changing the household-first shopping journey.

Kitchen-ready list
Variety, unit, lead time and indicative volume.

Recurring requirements
A practical path for planned weekly needs.

Business support
Clear order records and one supply contact.

Microgreens	250 g chef packs
Special requests	Plan ahead

06 – FROM THE GROWING ROOM

Useful reading for the produce in your kitchen.

The journal should reduce waste, support better use and reveal the care behind each harvest.

Visit the journal –>

EDITORIAL IMAGE – 3:2

KITCHEN NOTE – 4 MIN

How to keep microgreens crisp after delivery.

A simple storage routine for texture, flavour and less waste.

Read the guide –>

EDITORIAL IMAGE – 3:2

FIELD NOTE – 3 MIN

Why mushroom batches do not look exactly alike.

Read the note –>

EDITORIAL IMAGE – 3:2

RECIPE – 12 MIN

A warm oyster mushroom toast for two.

Open the recipe –>

NEXT HARVEST

Let the week begin with something genuinely fresh.

Browse what is ready now, or receive one concise harvest note when the next batch opens.

RESPONSIVE CONTINUITY

The same story, *made compact.*

On smaller screens, the hierarchy stays intact: promise, delivery context, current harvest, cultivation proof, then the restaurant path.

01 **Priority remains visible**
Household shopping and delivery lead every viewport.

02 **Cards become summaries**
Availability, unit and price stay visible without horizontal scrolling.

03 **Trust stays near action**
Pincode, harvest and handling information do not move into hidden policy pages.
